Extra-White Icing Sugar July 2023

Extra-White Icing Sugar

Product Description

Extra-White Icing Sugar is made from extra-white sugar by grinding.

Labelling

The sales denomination is: "Icing Sugar" In the list of ingredients Icing Sugar may be labelled with: "Sugar"

Sensory Characteristics

Appearance	White powder
Odour	Product-typical
Taste	Product-typical

Physical and Chemical Parameters

Parameter	Guidance values	Methods
Colour in solution	Max. 22.5 IU	ICUMSA (1)
Ash content	Max. 0.01 %	ICUMSA (1)
Polarisation	Min. 99.7 °Z	ICUMSA (1)
Invert sugar content	Max. 0.04 %	
Moisture	Max. 0.06 %	ICUMSA (1)

Particle Size

Product	Particle size for the icing sugar, at least	Method
Standard	Min. 80 % < 0.100 mm	Air jet sieving
Fine	Min. 70 % < 0.032 mm	Air jet sieving

~~~

#### **Microbiological Parameters**

| Parameter                   | Upper guidance value | Method     |
|-----------------------------|----------------------|------------|
| Mesophilic aerobic bacteria | 200 cfu/10 g         | ICUMSA (1) |
| Yeasts                      | 10 cfu/10 g          | ICUMSA (1) |
| Moulds                      | 10 cfu/10 g          | ICUMSA (1) |

 $^{(1)}$  ICUMSA = International Commission for Uniform Methods of Sugar Analysis

## Storage and Stability

| Storage conditions | Temperature 20 °C ± 5 °C<br>Relative humidity < 65 %<br>Store separately from smelling materials                                   |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Storage period     | Under the above mentioned conditions Icing Sugar retains its specific properties and can be stored for a virtually unlimited time. |

#### **Nutrition Declaration**

according to Regulation (EU) No 1169/2011 per 100 g

|                                     | The sugar used for the manufacturing of Icing Sugar is compliant with requirements for extra-white sugar as laid down in Council Directive 2001/111/EC <i>"relating to certain sugars intended for human consumption".</i>                                                                                                                                                  |  |
|                                     | The implemented Food Safety Management System corresponds to a GFSI-equivalent scheme. Certificates are available on request.                                                                                                                                                                                                                                               |  |
| Special diets                       | The product is made from agricultural raw material. No processing<br>aids derived from animals are used. Therefore the product can be<br>regarded as suitable for vegetarians and vegans.<br>Additionally the product is Kosher and Halal certified. Certificates are<br>available upon request.                                                                            |  |
| Allergens                           | An allergen labelling according to Regulation (EU) No 1169/2011 "on<br>the provision of food information to consumers" is not required<br>Except SO <sub>2</sub> no substances listed in Annex II are used in the suga<br>production process. The SO <sub>2</sub> content of the product is below<br>10 mg/kg.                                                              |  |
| GMO                                 | The product does not require labelling according to Regulation (E<br>No 1829/2003 "on genetically modified food and feed" at<br>Regulation (EC) No 1830/2003 "concerning the traceability at<br>labelling of genetically modified organisms and the traceability<br>food and feed products produced from genetically modified<br>organisms".                                |  |
| Nano technology                     | Based on the definition of Regulation (EU) No 1169/2011 <i>"on the provision of food information to consumers"</i> the product is not an engineered nanomaterial.                                                                                                                                                                                                           |  |
| Contaminants/<br>Pesticide residues | Compliance with Regulation (EU) 2023/915 "on maximum levels for certain contaminants in food and repealing Regulation (EC) No 1881/2006" and Regulation (EC) No 396/2005 "on maximum residue levels of pesticides in or on food and feed of plant and animal origin" is guaranteed for this product.                                                                        |  |
